COMMAND.APP®

EVERYTHING REPS NEED, ANYWHERE THEY GO.

Our mobile app platform enables situational sales and content delivery whether you're presenting virtually or in-person.

VIRTUAL

IN-PERSON

If it was both easy and affordable to get a high-tech mobile app customer engagement solution in place for the "current normal" AND the "future normal"... WHY WAIT?

By adopting a situational communication strategy paired with Command.App's mobile platform, your company will set itself up to emerge from business uncertainty ready for anything, and prepared for everything.

Deliver high-impact customer engagement, no matter where your reps are today, or go tomorrow.

- **Situational navigation for high-impact presentations.**
  Create more engaging presentations that resonate with buyers through cutting-edge design.

- **Maximize opportunities with every customer & make the complex clear.**
  Deliver more effective presentations, always prepared & confident in any customer interaction.

- **Deliver requested information on-the-spot and stop wasting time and money.**
  Easily share any collateral or piece of support material, and eliminate the need to respond, "I'll have to get back to you with that."

- **Create your ultimate mobile briefcase, so reps have everything in one place.**
  Reps have all their up-to-date brochures, spec sheets, videos and other support materials at their fingertips to close sales quicker.

- **Save money on printing and logistics.**
  Stop printing brochures, spec sheets, manuals and other costly support collateral that become outdated or end up in the trash. Share everything digitally from the devices your reps use everyday.

Shorten sales cycles with strategic data collection toolsets & calculators deployed on your mobile app.

- **Streamline the capture & delivery of customer intelligence.**
  Data collection forms like Order Requests, Needs Assessment, Surveys, and Field Inspections are easily deployed to reps around the globe, ensuring accurate and consistent customer information.

- **Instantly provide scope & understanding to buyers.**
  Share buyer specific calculations, demonstrating cost savings or competitive comparisons instantly. Real time data delivers results.

- **Simplify the capture & integration of more qualified leads.**
  Leads are easily captured and connected to specific data shared directly from the app, providing a more qualified prospect, and clearer path for followup. CRM integrations streamline processes.

- **Quickly search & lookup support materials no matter how vast your library.**
  Reps can effortlessly lookup, access and share collateral on their mobile devices, while Marketing departments organize, update and deploy.

COMMAND.APP®
MAKES IT EASY.

EASY TO BUILD: Smooth implementation with proven templates designed to handle complexity.

EASY TO ROLLOUT: One-click deployment to Apple, Android and Windows via cloud-based admin portal.

EASY TO MAINTAIN: 24-hour support & training ensure you have the keys to manage your app.

EASY TO UPDATE: Overwrite outdated materials through dynamic content management system.

EASY TO EXPAND: A dynamic platform facilitates the ability to start small and add on at anytime.

COMMAND.APP®
MAKES IT AFFORDABLE.

We understand that these are uncertain times, but also that now is the time for companies to reposition themselves for the "new normal" of customer engagement in order to be successful as we emerge from the economic hardships resulting from the current health crisis.

The following pricing/payment options were developed by our executive team in order to do what we can to become part of THE solution and help companies get back to doing business.
